Docket No.: 10011961-

Title: PRINTING DEVICE WITH READER FOR REMOVABLE MEDIA STORAGE CONTAINER

wherein downloading information further comprises accessing a telephone number of a remote access site in the key and utilizing the telephone number to locate and download the information.

22. (Currently Amended) The method as recited in ~~Claim 24~~ Claim 19, wherein downloading information further comprises accessing a universal resource locator (URL) in the key and utilizing the URL to locate and download the information.

23. (Original) A computer-readable medium comprising computer-executable instructions to perform a method as recited in Claim 19.

24-27. (Cancelled)

28. (Currently Amended) A method, comprising:

inserting a removable memory in a printing device;
recognizing a compressed audio file from the removable memory;
transmitting a key associated with the audio file over a network;
downloading information associated with the audio file directly to the printing device
over the network without an interconnected personal computer; and
printing at least a portion of the information associated with the audio file with the printing device.

29. (Withdrawn) The method of claim 28, wherein the information associated with the audio file comprises song lyrics.

30. (Previously Presented) The method of claim 28, wherein the information associated with the audio file comprises one or more images.

31. (Withdrawn) The method of claim 28, wherein the information associated with the audio file comprises a coupon.
